

Hey there!

Welcome to your new course! I just wanted to make sure you know how everything works.

What will I get out of this course?

An excellent foundation in Python and a certificate to prove it!

How do the sections work?

In each section you will be given an overview of a particular aspect of Python such as Writing Your First Python Program - Hello World, Variable Names, Processing Information, Indexes Summarising And Presenting Information to the screen.

Are there exercises/practice tests?

Yes. The course contains short sharp exercises and practice tests to test your knowledge and make sure you are learning as you go.

Throughout the course these exercises are tests you can build on to help you connect all the dots and prepare for certification.

So enjoy the course and I will see you along the way!

Paul.

Paul VII - CEO / Managing Director of Pashun Consulting Ltd.
