We use Replit because it is online and anyone can use it without problems (no matter which platform they are using)

If for some reason Replit is not functioning, this is outside our control. However, the options are below:

See the **section OPTIONAL: Getting Set Up On a PC or MAC if Replit is not working**

1. Use Python's REPL to run code directly on your computer as covered in the lecture "Quick Python Test - Running Python".

2. Use IDLE as covered in the lecture "Python Scripts and IDLE"

3. Use a Code Editor you prefer as covered in the lecture "Code Editors and IDEs"

Again, Replit usually works fine, however now you have some options if you run into challenges outside our control. Enjoy using Replit!

Get the free Daily Team To-do list [here](#) to take your team to the next level!

Pashun Consulting LTD

Scrum To-do List

Grab it now !

☐ update list of impediments from daily scrum, emails and other contact

☐ follow up on impediments above

☐ order any [illegible]

☐ write sprint report to [illegible] (once a sprint)

☐ chase up any information holding up sprint backlog, third party supplied artefacts

☐ make sure burndown and task board are visible in team room
